

WATER STATION LAYOUT
1000000 LITERS
AWG STATION
2017

▼ ECOLOBLUE WATER STATION:

- ▶ **TOTAL WATER PRODUCTION:**
1000000 LITERS/DAY (30°C / 80%R.H)
MAX: 1400000 LITERS/DAY
- ▶ **TOTAL ENERGY CONSUMPTION:**
26270 KW/h
- ▶ **AWG MACHINE QUANTITY:**
130 ECOLOBLUE 10000
- ▶ **FILTRATION SYSTEM CAPACITY:**
1900000 LITERS/DAY
- ▶ **AREA COVERED:**
(L) 220.0 x (W) 118.0 M
25960 M²

▼ WATER STORAGE:

- ▶ **RAW WATER STORAGE TANK:**
120000 LITERS
- ▶ **PURE WATER STORAGE TANK:**
1500000 LITERS

▼ EB10000 AWG:

- ▶ **PRODUCT PRODUCTION:**
10000 LITERS/DAY (30°C/ 80%R.H)
- ▶ **POWER SUPPLY:** 3P / 380V / 50HZ
OR: 3P / 480V / 60HZ
- ▶ **RATED INPUT POWER:** 202 KW/h
- ▶ **ENERGY CONSUMPTION:** 0.4167 KW/h / LITER
- ▶ **COMPRESSOR:** DANFOSS / 8 PER AWG
- ▶ **REFRIGERANT:** R407-C
- ▶ **WORKING CONDITIONS :**
TEMP : 0-60°C
HUMIDITY : 25%-100%
- ▶ **NOISE LEVEL:** <80Db
- ▶ **SIZE:** (L) 12.2 * (W) 2.54 * (H) 2.90 M

TECHNICAL PROPOSAL

► Since March 2007, **EcoloBlue** has been sustaining and supporting Water issues experienced worldwide, by suggesting **EcoloBlue** products, and accordingly providing environmentally conscious Water options to single family homes and offices, any business industry using large volume of potable Water, and in an emergency situation as a complete disaster relief solution.

► Since its inception, the company has grown its product line from a single home/office unit, to including today a full industrial line of Atmospheric Water Generators (AWGs), a fully contained emergency preparedness container, and **EcoloBlue Water Station** of various sizes.

The **EcoloBlue 10000** is the largest AWG industrial unit ever produced in the history and will be fully commercialized allowing to push our vision of developing Water Stations around the world using various alternative energies depending of the location.

► **EcoloBlue** has also developed the most advanced emergency independent water generator the ACE 3000, a 40ft container producing over 750gallon/3000 liters per day, which we expect revolutionizing the emergency industry in distributing first aid potable water to a disaster area, delivering the best quality water to a larger amount of people in much lesser time and most economically.

Thank you for evaluating **EcoloBlue** as your water provider and solution generating the highest water quality of water it can provide to the people in the UAE.

► ECOLOBLUE 10000: INTERNAL SIDE VIEW

► The humidity from the air , taking in by the powerful new fan sistem, passes through the condenser that is cooled by the refrigerant.

► The height temperature of the evaporator allows the condenser to take the moisture from the air to generate water.

- ▶ **1.1** With respect to ECOLOBLUE's warranty extended to operation and performance of each ECOLOBLUE device and replacement parts sold to Distributor other than consumables, the Products shall be subject to a one (1) year manufacturer's warranty for products that were defective when sold for any home/office unit and ten (10) year manufacturer's warranty for defective products for any ECOLOBLUE industrial unit (on all the components except filters.) Distributor, on behalf of itself and all of its representatives or agents, agrees not to make any representation or give any warranty with respect to any of the Products other than those made by ECOLOBLUE. In the event that Distributor does make any representation or warranty in violation of the foregoing, then Distributor agrees to indemnify and hold ECOLOBLUE harmless from any claims, demands, suits, proceedings, damages, liabilities or costs or losses of any nature or kind whatsoever arising out of or in any way connected with any such representation or warranty.
- ▶ **1.2** On-site training will take place upon arrival of the various units, one A/C refrigerant Engineer, and two A/C Technicians and one Electrical Engineer, are required running optimally the EcoloBlue Water Station.
- ▶ **1.3** We offer 5 years of free maintenance covering all the parts that could be malfunctioning

SERVICES & AFTER SALES // WARRANTY MAINTENANCE & TRAINING

WORLDWIDE PATENTS

ECOLOBLUE MACHINES ARE BUID BASED ON A PROPRIETARY TECHNOLOGY PROTECTED BY WORLDWIDE PATENTS

INVENTION PATENTS

- APPARATUS AND METHODS FOR CREATING SPARKLING WATER
- VERSATILE ENVIRONMENTALLY CONSCIOUS APARATUS
- SYSTEM AND METHODS FOR POTABLE WATER PRODUCTION

UTILITY PATENTS

- SPARKLING WATER
- INDUSTRIAL AIR TO WATER
- INDUSTRIAL AWG
- MUSIC INTEGRATION
- COFEE INTEGRATION
- ICE CREATION

TRADEMARKS

- ECOLOBLUE'S TRICOLOR LOGO
- ECOLOBLUE'S ECOLOBLUE STANDARD CHARACTER MARK

DESIGN PATENTS

- WATER SYSTEM
- SOLAR CHARGER
- BOTTLE

EcoloBlue owns 5 Patents of which two concern generating water below Dew Point, a mechanical process primarily implemented for the industrial units product line

EcoloBlue products have acquired Water tests from every continent in the world, performed by its local distributors or third party, all sustaining better Water quality then most bottled Water in their respective market (all the results be found on www.EcoloBlue.com)

EcoloBlue is the only AWG company officially allowed to sell its products in Japan, having been awarded the Japanese Food Quarantine Certificate

Approved product by the Japanese Ministry of Defense (in process for approval in the Kingdom of Saudi Arabia)

The Kingdom of Saudi Arabia has approved and certified EcoloBlue products for its commercial resell in the Kingdom (documents are available upon request)

EcoloBlue products have been approved by the US National Guard for its use, for better quality Water and most economical solution vs. bottled Water

Approved by the FAO (Food and Agriculture Organization of the United Nation) located in Rome, Italy

EcoloBlue products are extensively used in the city of Flint, Michigan, US sustaining their Waterr, free from lead contamination (press coverage is available upon request)

EcoloBlue has over 15,000 customers around the world, primarily in the United States using a home/office in their homes for their daily Water consumption

EcoloBlue home/office products are ROHS, CE, EMC and LVD certified

EcoloBlue industrial units are all CE certified using Danish American, Japanese and Danish compressors and Danish valves, German PLC system, American electronics, South-Korean filters for its key and critical components all complying to all the reputable and recognized certifications

EcoloBlue is approved by the Vietnamese Government
